

1.Operation Summary

LED blink every one seconds by using interval timer.

2.Basic Operation

This sample program is evaluated on the TMPM4K4 evaluation board.

UART Setting

TXD	:PK1
Baud Rate	:115200(bps)
Data	:8(bit)
Parity	:none
Stop Bit	:1(bit)
Flow Control	none

function	Detail
interval timer	LED blink every one seconds.

LED connect PJ0,PJ2,PJ4,PL4

Display exsample of Teraterm

General Timer Period : 1sec

Key	function
P_SW1button (PE2)	stop blinking LED
P_SW2 button (PE3)	Blink LED
